

longhorn.txt

Right click on the link 'Texas Longhorn Cursor'.  
Click "Save Target As", and then save it to the C:\Windows\Cursors folder.  
Go to Start and then Settings and then Control Panel and then Mouse.  
Choose Pointers and make sure that normal select is highlighted.  
Choose Browse and then select longhorn.cur  
Click "Open".  
Click "OK" and then you will be a true Longhorn fan!

It works best to use the left horn as the pointer.
